## Professional Experience

---

**Technical Writer II, Amazon Web Services** 07/2025 – Present | Austin, TX

- Expanded CLI/SDK reference example coverage for ~30 API operations across Amazon ECS and AWS Cloud Map that didn't have examples, ensuring complete coverage.
- Worked collaboratively on an open-source project that provides customers with 70 CLI tutorials/scripts for various use cases across 64 AWS services and allows them to generate their own using prompts, serving as an interactive learning experience.
- Developed a chapter for creating Amazon ECS resources with AWS CloudFormation in response to high customer IaC usage. Utilized Generative AI (Q CLI) for more efficient CloudFormation template creation.
- Unblocked feature launches by guiding engineers through shared engineering-docs processes for SDK releases. Tracked multiple projects on Asana and made prioritization decisions.
- Leveraged prompts and Generative AI for more efficient routine updates and scripts.

**Technical Writer I, Amazon Web Services** 07/2023 – 06/2025 | Austin, TX

- Took over sole ownership of AWS Cloud Map docs in addition to shared ownership of Amazon ECS docs.
- Refactored Amazon ECS and AWS Cloud Map guides to scenario-based content, improving customer feedback metrics. Peer reviewed other AWS guides for compliance.
- Produced feature documentation in API references, developer guides, and UI text. Tested features. Followed a docs-as-code approach and an internal style guide.

**Technical Writer Intern, Amazon Web Services** 06/2022 – 08/2022

- Created and rewrote a cross-service tutorial in the Amazon ECS developer guide to address customer demands. Authored in a docs-as-code workflow.
- Replaced outdated AWS CLI reference examples. Created 3 sample AWS CloudFormation templates for ECS resources using JSON and YAML.
- Fixed 2 CDK examples in JavaScript and TypeScript to resolve customer tickets.
